ASIA HACKATHON 2026 in TOKYO

Hosted by 42 Gyeongsan and 42 Tokyo

2026

AI Agents for Corporate Productivity

9-13 NOVEMBER 2026 · TOKYO, JAPAN
Powered by Mistral AI

SIX CAMPUSES. ONE 42-HOUR BUILD.

Teams from Japan, Korea, Thailand, Singapore, Jordan and Kuala Malaysia meet in Tokyo to turn an idea into a working prototype.

6 CAMPUSES ACROSS ASIA

01 SOLVE

Tackle a real technical problem.

02 BUILD

Learn by shipping a live prototype.

03 CONNECT

Create relationships across the 42 network.

THE CHALLENGE

Build an agent that makes work move.

Prototype an AI agent or multi-step workflow that removes a real corporate productivity bottleneck - and can be demonstrated live.

PLAN → CONNECT → ACT

POWERED BY MISTRAL AI

Arrive with the fundamentals already working.

A small prep project buys your team more time for the idea - not setup.

01

CODE

Python first

Use the official mistralai SDK. Add JavaScript or TypeScript only when your demo needs a UI.

02

CONNECT

Agents + tools

Practice chat completions, retrieval and function calls that turn model output into useful actions.

03

DEMO

Ship one draft

Bring one working draft: a Streamlit chatbot, PDF RAG app or API-calling bot.

AI CREDITS PROVIDED TO EVERY PARTICIPANT

docs.mistral.ai

The 42-hour clock starts Monday at 16:00.

42H

Tokyo runs smoothly when you set up four basics.

TOKYO / NOVEMBER

01 WEATHER

Pack a warm layer for cool evenings.

02 TRANSIT

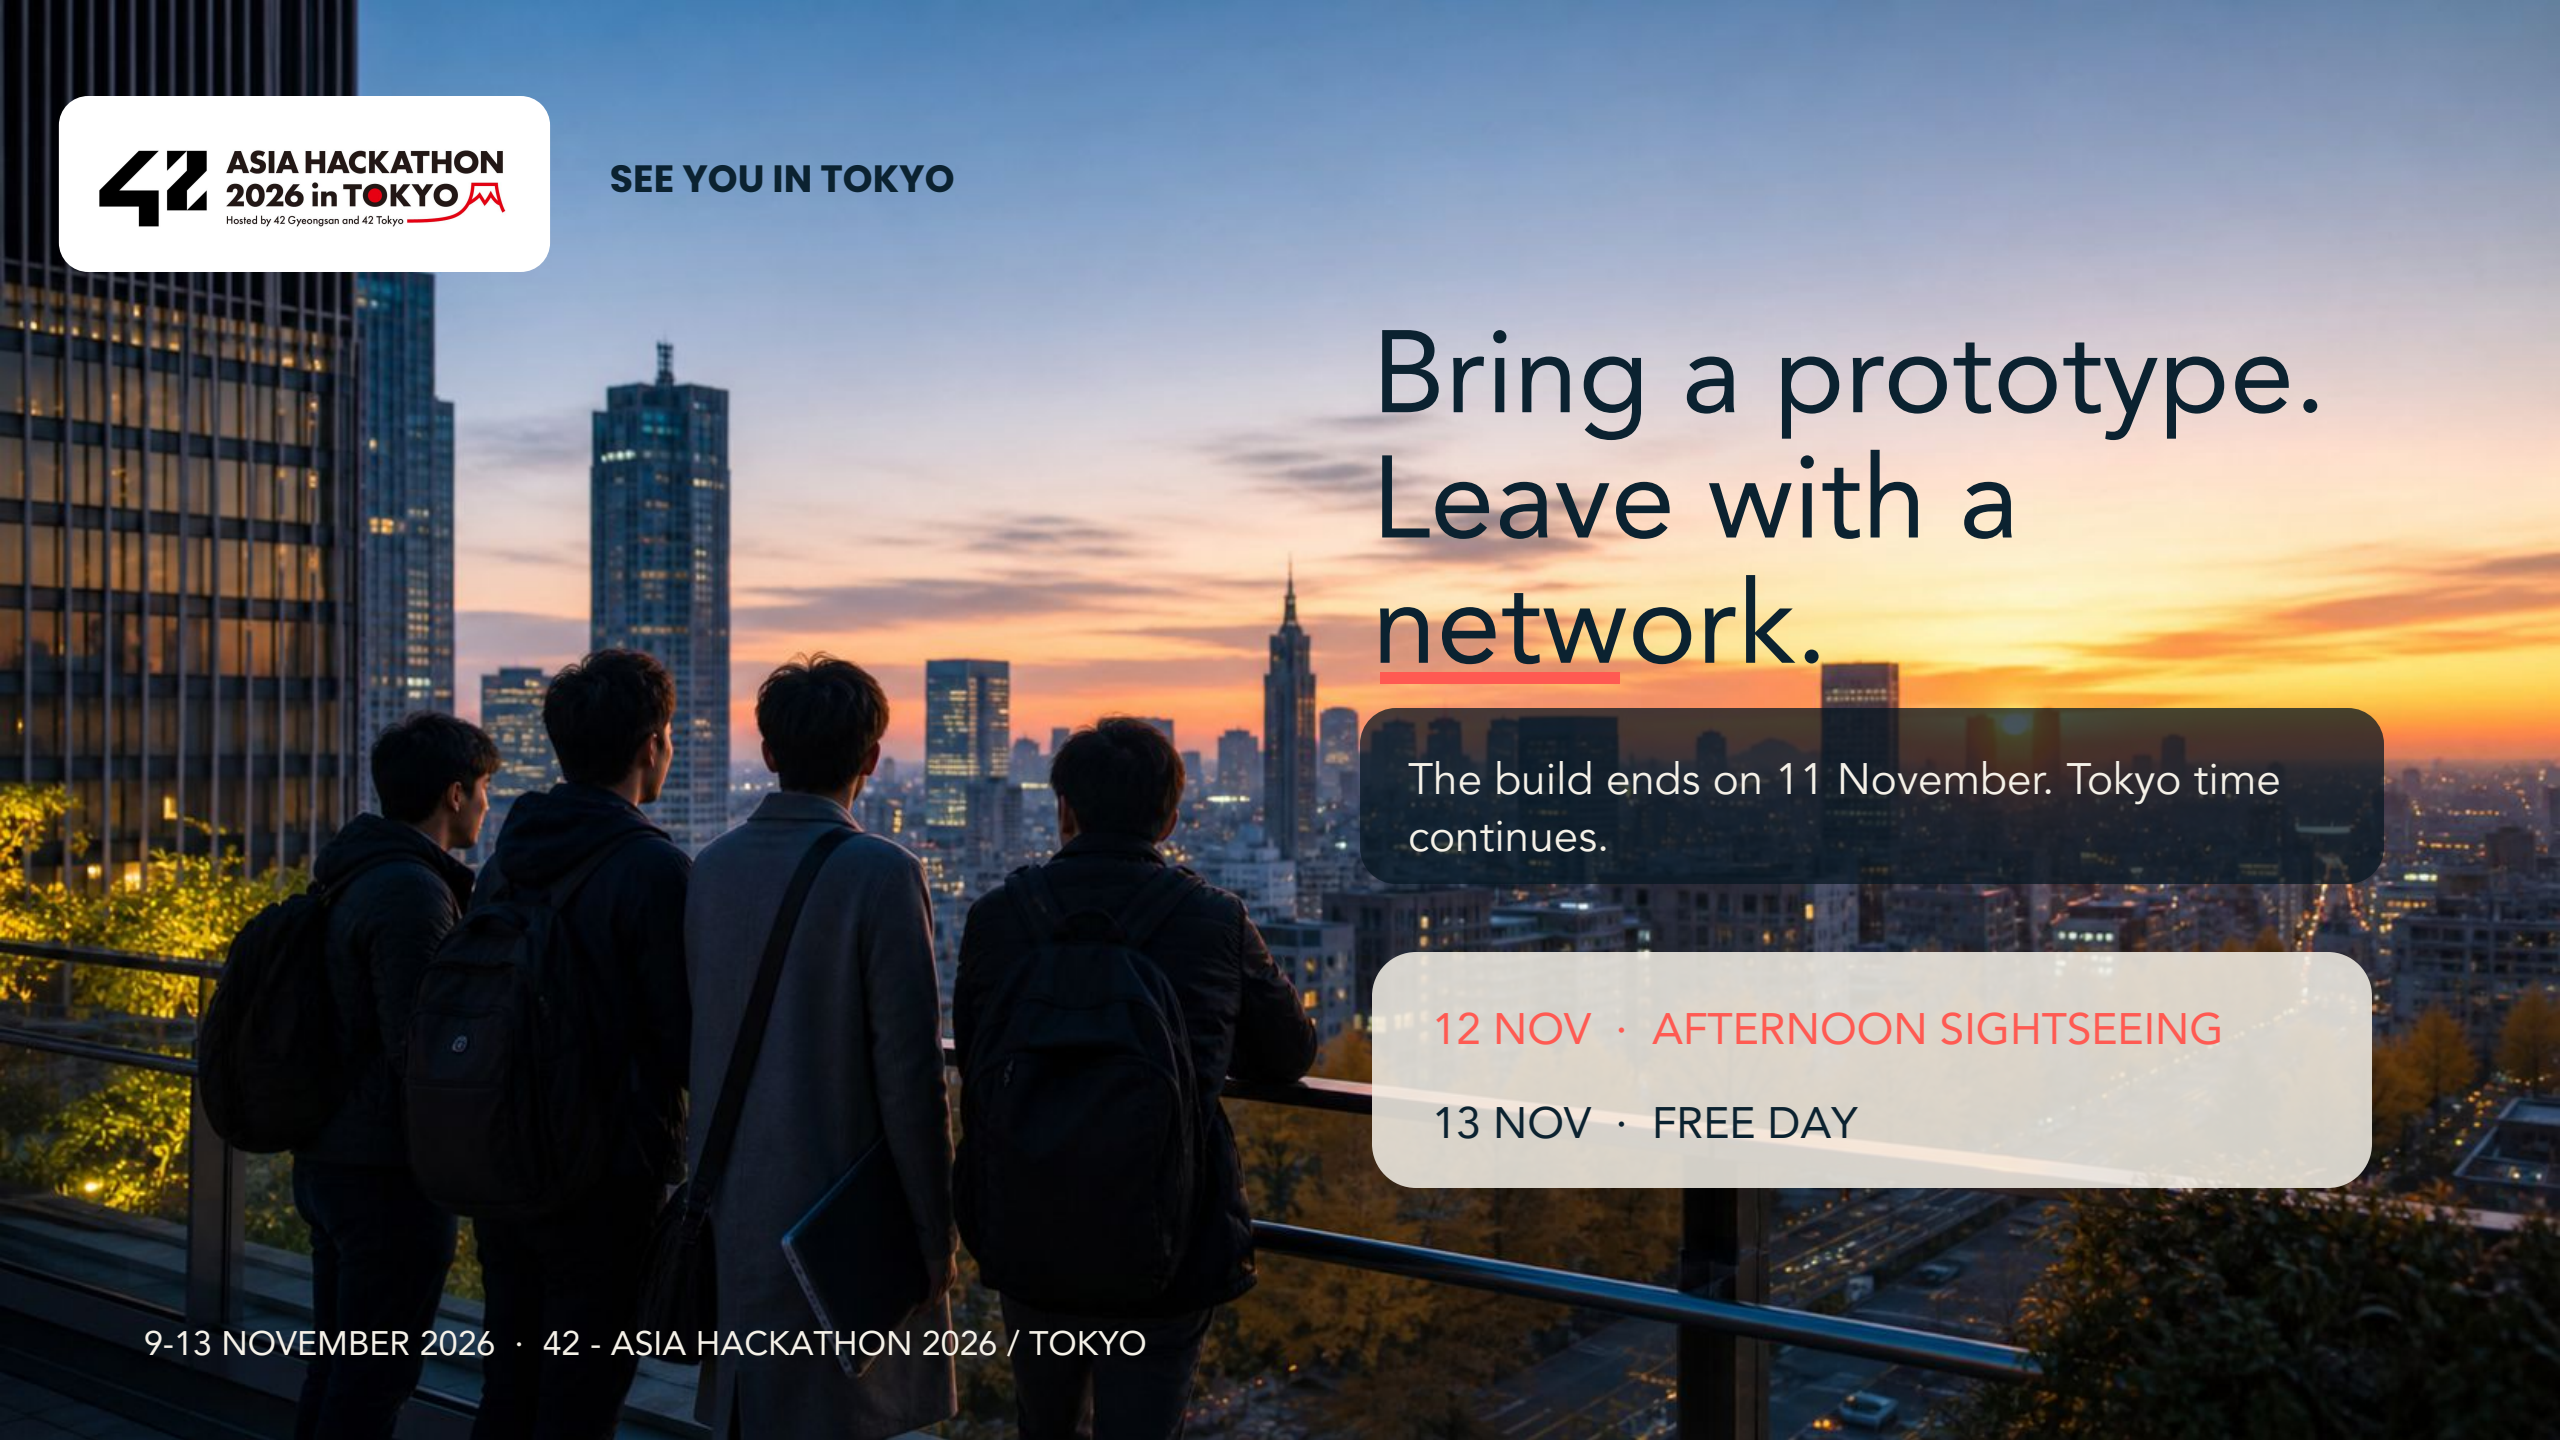

Use Suica, PASMO or Welcome Suica for trains and small purchases. Apple Wallet setup is supported.

03 PAYMENTS

Cards and contactless payments are common, but keep some yen for places that still require cash.

04 ETIQUETTE

Street smoking is restricted. Use designated smoking areas and follow local signs.
